

Q. No.	Initial Questions	LCC Response	Follow-up Comments
1	Correspondence between LCC, the Governing Body of St Guthlac's and George Farmer and the Crowland ward member Cllr Przyszlak regarding the proposals to close St Guthlac's School. Note correspondence means (but is not limited to) emails, letters, transcripts of telephone conversations.	CfBT and LCC do not hold this information you would need to contact the schools direct.	<p>I would expect both LCC and CfBT to hold copies of any correspondence generated by them and sent to the requested parties.</p> <p>I have contacted the school governing body to request information they have generated.</p> <p>Note that I consider this response unacceptable, and request that you review this.</p>
2	Details of the Governing body of said school and their recorded interests made at the start of the Academic year and also any additional interests recorded when the unanimous vote to put forward the proposals was made.	The Clerk to Governors would hold details of any declaration of interests that were collected at the start of the year and at any meetings. They would also have the Governing Body details - we have however attached a list of names (only) from our records,	I have contacted the school governing body for this information, and consider this question answered from your perspective.
3	Any information used by LCC and the Governing Body of said schools to determine that the St Guthlac's school is not sustainable in the longer term. I consider this information to be (but not limited to) pupil number predictions, geography of where pupils come from and the current financial situation of the school.	Please find attached PDF documents and Excel spreadsheet with regard to question 3 information.	<p>I am reviewing the information sent regarding pupil numbers etc, I would expect LCC to hold some financial information relating to the financial viability of the school.</p> <p>I have contacted the school governing body to request financial information.</p> <p>Note that I consider the information provided to partly answer the request, but the financial aspects of my question has not been addressed.</p>
4	Any minutes from LCC meetings where the proposals to close St Guthlac's were discussed.	CfBT and LCC, Property and Technology Management (formerly Provision Planning) are not aware of any information relating to the proposed closure of St Guthlac's School. You will need to contact the School direct.	<p>I would expect LCC or CfBT to accurately record discussions or formal meetings (with councillors or officers) and be able to issue these on request.</p> <p>To suggest that LCC "are not aware of any information" relating to the closure of St Guthlac's when press releases have been issued and radio interviews undertaken is beyond belief.</p> <p>In my opinion there is clear evidence to suggest that both LCC and CfBT are aware of both the academy proposals and the general situation at St Guthlac's School.</p> <p>Note that I consider your response unacceptable, and request that you review this.</p>

5	Any minutes from the said schools Governing Body where the proposals to close St Guthlac's were discussed.	You will need to contact the school direct; we have provided contact details to assist you with this.	I have contacted the school governing body for this information, and consider this question answered from your perspective.
