

## Save St Guthlac's School - Press Article

### Give us our meeting on St Guthlac closure

YOU will be aware that George Farmer Technology and Language School wants to open an academy for the children of Holbeach and St Guthlac.

I, and many other parents, do not want this move to go ahead. If we wanted our children to go to an academy we would have sent them to one.

Most people choose St Guthlac as it is a country school where all the teachers know every child's name.

They also know most of the parents and are always there to help if a problem arises.

We, the parents, have not been allowed to have our say. We were told there would be a meeting, this was over a year ago.

We desperately need to voice our opinions. We have done a petition and if you look on the Save St Guthlac website you will see people do not

want this school to shut.

Give us an open meeting so we can have our say. It would be nice to see all the people that are supporting us there in person.

People of Crowland and surrounding areas we show we are united and SAVE ST GUTHLAC SCHOOL.
